

ELEVATION: CRANES, LIFTS, RAMPS, ETC.
LIFTING QUALITY

Elevation sector comprehends a wide range of applications both in industrial activities as well as in civil works. For instance, we can name: lifts, mechanical stairs and ramps, gantry cranes, ski resorts, etc. All of them are **in continuous motion and need a proper lubrication** for their correct functioning. In all these application, so that motion never stops, **Intza Lubrication Systems is a guarantee of reliability and quality.**

In case you must lift heavy loads, if it cannot stop, if it rains, is cold or very hot, you need reliability: **Intza Lubrication Systems.**
